

Produkt Data Sheet

SORB®XT Conductive Barrel

Article	SORB®XT CB30
Article No.	100608
Dimensions (mm)	Ø 316 x H 426
Weight	1,302 Kg
Capacity	26 L

Product Information:

Productinformation

- Wide neck drum – 26 litres
- Made of electrostatically conductive plastic
- Protects sensitive components against charging and electrostatic discharge
- The barrel is air, vapor and liquid tight due to the hermetically sealed screw cap.
- Filled with 100% natural SORB®XT natural fibre

Storage

- Store dry and with low humidity to avoid mold

Properties

- Antistatic
- Two side handles
- Extra large filling opening (Ø 204 mm)
- Surface resistance: <10 Ohm
- Air, vapor and liquid tight
- Maximum filling temperature 80°C
- Sealable
- UN certified for packing groups I, II and III
